Link Between Deaths of JFK, King Claimed

WASHINGTON (UPI)—A preliminary committee which says it formed to "investigate assassinations" contends it has a link between the slayings of President John F. Kennedy and Dr. Martin Luther King Jr. Richard Fosterwald Jr., one of the committee's members, said a slay-

conference Monday the alleged link is a picture of a man in Dallas an hour after Kennedy was slain.

The photograph is a blown-up shot of a man supposedly being arrested in Dealey Plaza in Dallas. Fosterwald exhibited the photograph and said the man pictured strongly resembled a police sketch made in Memphis from accounts of eyewitnesses to the King assassination.

He suggested the man in the Dallas picture may be the "real" assassin of King.

Fosterwald, former counsel

"whole raft of information" that there were at least two persons involved in the Nov. 22, 1963 Kennedy assassination.

A member of the committee, Richard Sprague of Hartdale, N.Y., said testimony to the Warren Commission supports the contention that three men were arrested an hour after the Kennedy assassination. He said a Dallas policeman testified he ar-

rested three "witnesses" in the road yards behind the site where Kennedy was shot.

Fosterwald said there never another mention of the arrested man as a suspect in the assassination.
